## Information Net work

To circulate an urgent message, among members of the 'Central Bank Pensioners Association this hand book will be used in future. How it is to be used is as follows :

1. The relevant message will be given over the phone either by the president or secretary to the two persons whose names are first in the hand book name list.
2. Those two members will have to telephone and pass that message to the next two members immediately after their names in the list.
3. Thus what you have to do is soon after getting a message for circulation you should telephone and inform that message to the two persons whose names follow just after your name in the hand book.
4. If you cannot contact the member next to your name in the list due to not having the tele number or the member being not at home, please move down the list and call the first person whose tele number is available
5. It is essential after receiving the message for circulation that you must pass it to the next two members immediately following your name in the list.
6. Doing so, the message for circulation can be passed on to almost all members within a couple of days.
